Dagangan:	Kod Tarif (Perintah Duti Kastam 1996) :
11. Voice Logging Machine Trade Name : Voice Recording ADD and UPG Hardware Model : High Density Nicelog Logger Brand : Nice	8520.90.900

Keterangan :

Barangan ini merupakan sejenis *multi-channel communication recorder that will stimultaneously* ***record and replay messages*** *from multiple devices consecutively. The solution offers instant access to all* ***online (electronic storage directly accessible to the recorder – local or remote hard disk drive or array)*** *messages with various options for online storage from local* ***hard disk drive to storage area networks (SAN).*** *The solution also provide archiving options to store long lterm records or as a secondary backup to the online storage. Archive options are available as local devices or remote devices on customer preference.*

Barangan ini juga *provides a complete, reliable and robust* ***audio storage solution****. The logger's remarkably high density of recording (up to 480 recording channels and 80,000 hours of storage per unit; with centralized archiving in the NICE Storage Center providing a virtually unlimited on-line capacity) reduces footprint size and total cost of ownership*.

High Density Nicelog Logger ini juga utilizes a new ***PCI-based*** *(Peripheral Component Interconnect) architecture, providing a future-proof,* ***digital****,* ***multimedia recording platform*** *with expanded capacity and a wide range of scaleable recording solutions. By separating customer and agent voices, NiceLog makes extended audio analysis (including word spotting, emotion detection and talk analysis) possible in a single unit.*

NiceLog supports virtually ***all telephony interfaces*** *including analog, digital, E1/T1, BT Megalink SCSA and VoIP, with the voice capture method employed being transparent to the user.* Cara pemasangannya ditunjukkan seperti pada Lampiran D2.

Kebaikan barangan ini :

Cost effective - Best compression and largest channel capacity for lowest cost of ownership.

Reliable - With more than 500,000 channels installed worldwide in over 8,500 sites, NiceLog has withstood the test of time in the most mission-critical environments.

Secure - Powered by Microsoft Windows 2003 Server - more secure "out of the box".

Scalable - Modular design and open architecture meet evolving needs, including expanding capacity and emerging technologies, such as VoIP.

Increased productivity - Recordings are easily retrieved and instantly replayed by anyone who needs them, anywhere.

Fakta :

Berdasarkan keterangan di atas, cara suara direkodkan adalah melalui ***the recorder – local or remote hard disk*** yang terdapat dalam barangan tersebut.

Specifikasi yang diberikan juga menerangkan *On-line recording is to the internal hard disk whereas offline storage is on to either DVD RAM, atau tape seperti DDS4(Digital Data Storage) atau AIT – 1(Advanced Intelligent Tape).*

Mesyuarat Panel Penetapan Penjenisan Bil. **45/2010** memutuskan barangan ini sesuai diperjeniskan mengikut GIR 1 di bawah kod tarif **8520.90 900** sebagai ***Other digital sound recording or reproducing apparatus*** berdasarkan alasan-alasan berikut :-

a. Kesemua suara direkodkan dengan menggunakan ***internal storage device or media*** yang dipasangkan di dalam barangan tersebut.

b. Barangan ini mendapat liputan dalam Explanatory Note 2002 m.s. 1661, (B) (6) seperti berikut:

(B) COMBINED SOUND RECORDING AND REPRODUCING APPARATUS

These apparatus incorporate devices for recording and reproducing sound. Sound is recorded by means of, in particular, magnetic media or integrated circuits, such as microprocessors.

This group includes, inter alia :

(1).....

(2).....

(3).....

(4).....

(5).....

(6) *Voice recording apparatus which incorporate or are designed to be attached to acoustic devices. These apparatus record speech spoken directly into the apparatus via microphone, or by other means, eg. Telephones (eg.* ***voice logging machines,.....***
