

Dagangan : JACK LANDING LEGS FOR SEMI-TRAILER

Nama Perdagangan : Landing Legs

Jenama : Jost

Model : A400

Kod Tarif (Perintah Duti Kastam 2012) :

8425.49.20 00 (PDK 2017)

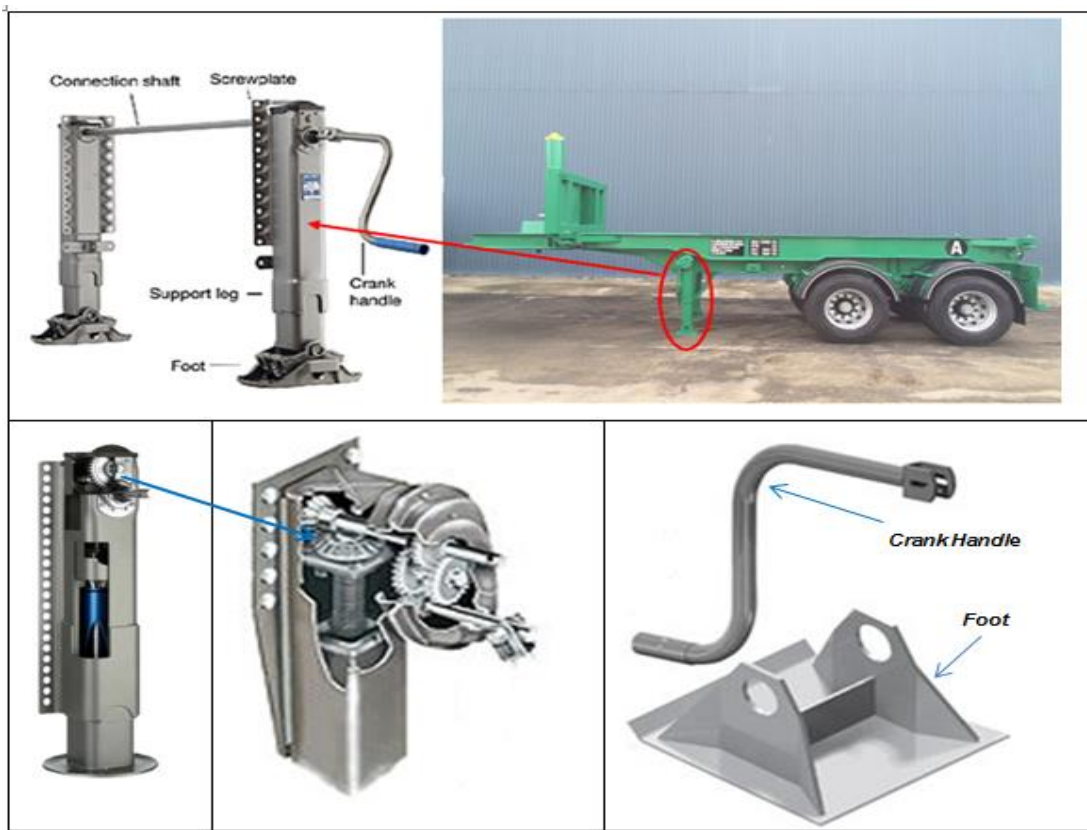

Tarikh Kelulusan : 07 April 2017

Keterangan barangan :

Barangan dinamakan sebagai *Landing Legs* atau *Landing Gears* berbentuk *tubing* yang dibuat daripada keluli dan mempunyai sifat *telescopic* di mana ia boleh dipanjangkan dan dipendekkan. Berdasarkan spesifikasi dan senarai komponen yang dikemukakan oleh syarikat, secara asasnya (*basically*), barangan terdiri daripada :

- i. a leg made from steel tubing,
- ii. a flat foot pad,
- iii. a combination screw and nut
- iv. a gear mechanism which is manually cranked by means of a z-shaped handle.

Gambar barangan adalah seperti berikut :

Barangan akan dipasang (*mounted*) secara kekal pada bahagian hadapan *semi-trailer*. Fungsi barangan ini adalah *to sustain the weight of the trailer*. *When the prime mover is removed from the trailer, landing legs/landing gear have to move down as to ensure the trailer position is even.*

Bahagian dalam (*inner portion*) kaki boleh di *cranked down* apabila *semi-trailer* dipisahkan daripada traktor untuk mengekalkan *semi-trailer* pada kedudukan yang stabil, dan ia boleh tertarik semula pada kedudukan asal apabila *semi-trailer* disambung kepada traktor/*prime mover*.

Ketetapan

Ketua Pengarah Kastam memutuskan barangan ini sesuai diperjeniskan di bawah kod tariff **8425.49.20 00** sebagai ***other jack of a kind used for raising vehicles not electrically operated*** berdasarkan alasan-alasan berikut :

- (i) Barangan akan dipasang secara kekal pada *semi-trailer*. Kegunaan barangan adalah untuk menampung (*sustain*) berat *semi-trailer* apabila ia dipisahkan daripada traktor. *Landing Leg* ini akan *raised the trailer* pada kedudukan yang stabil..
- (ii) Barangan menggunakan *a gear mechanism which is manually cranked by means of a z-shaped handle*.
- (iii) Berdasarkan keterangan di atas, barangan sesuai diperjeniskan di bawah subheading 8425.49 dan mendapat liputan dalam HS EN muka surat XVI-84.25-1 seperti berikut:

84.25 - Pulley tackle and hoist other than skip hoists; winched and capstans; jacks

- *Pulley tackle and hoists other than skiphoists or hoists of a kind used for raising vehicles :*

8425.11 - *Powered by electric motor*

8425.19 - *Other*

- *Winches; capstans :*

8425.31 - - *Power by electric motors*

8425.39 - - *Other*

- *Jacks; hoists of a kind used for raising vehicles:*

8425.41 - - *Built-in jacking system of a type used in garages*

8425.42 - - *Other jacks and hoist, hydraulic*

8425.49 - - Other

This heading covers simple lifting or handling equipment. The provisions of Explanatory Note to heading 84.26 apply, mutatis mutandis, to the equipment of this heading insofar as they concern self-propelled and other "mobile" machines, multi-function machines and lifting, loading, handling etc., machines intended for incorporation in other machines or for mounting on transport vehicles or vessels of Section XVII. However, if a winch is the normal working tool of a tractor, the complete machine (tractors and winch) is classifiable in heading 87.01.

This heading covers :

(III) Jacks

Jacks are designed to raise heavy loads though short distances. The heading include racks and pawl jacks, screw jacks in which the screw is raised by rotation or by rotating a nut fixed in the jack base, and telescopic screw jacks operated by the action of two or more concentric screws, the outer screw turning in the nut in the jack base.
