**Ketetapan:**

Ketua Pengarah Kastam Malaysia memutuskan barangan ini sesuai diperjeniskan di bawah kod tarif **8428.90.90 00** sebagai ***Pedestrian Movable Lifting Platform Electrical Operated being Other Lifting Platform*** berdasarkan alasan-alasan berikut:

Barangan merupakan peralatan mekanikal untuk *lifting operation*. Oleh itu, barangan kemungkinan boleh diklasifikasikan di antara heading **84.26** hingga **84.28**. Walaubagaimanapun, barangan bukannya sejenis crane, forklift atau truck. Maka ianya tidak sesuai diklasifikasikan di bawah heading **84.26** dan **84.27**. Hal ini seperti yang dinyatakan di dalam EN HS 2012 muka surat XVI-8428-1 sepertimana yang berikut:

*With the exception of the lifting and handling machinery of headings 84.25 to 84.27, this heading covers a wide range of machinery for the mechanical handling of materials, goods, etc. (lifting, conveying, loading, unloading, etc.). They remain here even if specialised for a particular industry, for agriculture, metallurgy, etc. This heading is not limited to lifting or handling equipment for solid materials but also includes such machinery for liquids or gases. But the heading excludes liquid elevators of the type falling in heading 84.13, and floating docks, coffer-dams and similar marine lifting and re-floating appliances operating solely by hydrostatic buoyancy (heading 89.05 or 89.07).*

*The provisions of Explanatory Note to heading 84.26 apply, mutatis mutandis, to the equipment of this heading insofar as they concern self-propelled and other " mobile " machines, multifunction machines and lifting, loading, handling, etc., machines intended for incorporation in other machines or for mounting on transport vehicles or vessels of Section XVII.*

Berdasarkan keterangan EN di atas, barangan sesuai diklasifikasikan sebagai other lifting machinery di bawah heading **84.28**.

Barangan ini tidak dinyatakan secara jelas di dalam EN HS 2012 di bawah heading **84.28**. Namun, terdapat barangan yang mempunyai fungsi seakan sama yang dijelaskan di dalam EN HS 2012 muka surat XVI-8428-4 sepertimana yang berikut:

**(III) OTHER SPECIAL LIFTING OR HANDLING MACHINER**

**(IJ) Platforms, whether or not self-propelled, for the handling of containers or palettes used in airports for loading or unloading of aircraft. This equipment consists principally of an elevated platform supported by two diagonal cross-members. It is provided with a moving belt to transport the cargo. This equipment is not intended to transport containers or palettes, even over short distances, but IS positioned empty beside the aircraft and operates only from that position.**

Memandangkan jabatan masih belum menerima EN HS 2017 daripada WCO semasa laporan ini disediakan, maka rujukan dibuat berdasarkan EN HS 2012. Berdasarkan keterangan dan fakta diatas, barangan sesuai diperjeniskan dibawah subheading **8428.90** yang mendapat liputan secara khusus berdasarkan Perintah Duti Kastam ( PDK 2017 ) muka surat 820 dan 821 seperti berikut :

**84.28 Other lifting, handling, loading or unloading machinery (for example, lifts, escalators, conveyors, teleferics).**

8428.10 - Lifts and skip hoists:

8428.20 - Pneumatic elevators and conveyors:

- Other continuous-action elevators and conveyors, for goods or materials:

8428.40.00 00 - Escalators and moving walkways

8428.60.00 00 - Teleferics, chair-lifts, ski-draglines; traction mechanisms for funiculars

**8428.90 - Other machinery:**

8428.90.20 00 - - Automated machines for the transport, handling and storage of printed circuit boards, printed wiring boards or printed circuit assemblies

8428.90.30 00 - - Mine wagon pusher, locomotive or wagon traversers, wagon tippers and similar railway wagon handling equipment
