

<p>Dagangan : HEAT SHRINKABLE LAY- FLAT TUBING OF POLYETHYLENE</p> <p>Nama Perdagangan : Heat Shrinkable Thin Wall Tube without Adhesive</p> <p>Jenama : Nexans</p> <p>Model : GT</p>	<p>Kod Tarif (Perintah Duti Kastam 2012) : 3917.32 920</p> <p>Tarikh Kelulusan : 10 Januari 2017</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------

Keterangan barangan :

Barangan dikenali sebagai **Heat-Shrinkable Thin Wall Tube Without Adhesive GT7** adalah sejenis *polyethylene lay-flat tubing in a form of continuous roll* dan berongga di mana terdapat bukaan di kedua-dua hujungnya (*open at both ends*).

Barangan berfungsi sebagai pelindung atau lapisan penebat ke atas substrat seperti paip, hos, konduktor elektrik dan kumpulan wayar atau kabel di mana tiub ini dimasukkan ke dalam substrat dan akan mengecut mengikut kesesuaian dengan bentuk substrat kepada saiz yang telah ditetapkan melalui kawalan haba kepada barangan.

Ketua Pengarah Kastam memutuskan barangan ini sesuai diperjeniskan di bawah kod tarif **3917.32 920** sebagai **other tubes, not reinforced or otherwise combined with other materials, without fittings, of other addition polymerization products** berdasarkan alasan-alasan berikut:

- Barangan adalah sejenis *polyethylene lay-flat tubing in a form of continuous roll* dan merupakan sejenis *hollow products*, di mana terdapat bukaan di kedua-dua hujungnya (*open at both ends*).
- Analisis pakar mengesahkan bahawa barangan adalah tiub plastik terdiri daripada **Polyethylene**.
- *Polyethylene* merupakan sejenis *addition polymerization product* berdasarkan rujukan buku *Shreve's Chemical Process Industries 5th Edition* di muka surat 635 dan 639 0.
- Barangan yang dikemukakan *not reinforced or otherwise combined with other materials, without fittings and not further worked than merely surface worked*.
- Barangan berfungsi sebagai pelindung atau lapisan penebat ke atas substrat seperti paip, hos, konduktor elektrik dan kumpulan wayar atau kabel.
- Barangan mendapat liputan di bawah *Chapter 39* dan memenuhi maksud *tubes* berdasarkan keterangan dalam *Note 8* kepada *Chapter 39 EN HS 2012* muka surat VII-39-3 iaitu :

Chapter 39
Plastics and articles thereof

Chapter Notes

(1).....

(8) *For the purposes of heading 39.17, the expression "tubes, pipes and hoses" means hollow products, whether semi-manufactures or finished products, of a kind generally used for conveying, conducting or distributing gases or liquids (for example, ribbed garden hose, perforated tubes). This expression also includes sausage casings and other lay-flat tubing. However, except for the last-mentioned, those having an internal cross-section other than round, oval, rectangular (in which the length does not exceed 1.5 times the width) or in the shape of a regular polygon are not to be regarded as tubes, pipes and hoses but as profile shapes.*

- Berdasarkan struktur tarif dalam Perintah Duti Kastam 2012, barangan sesuai diperjeniskan secara spesifik di bawah kod tariff **3917.32 920** sebagaimana berikut :

39.17		Tubes, pipes and hoses, and fittings therefor (for example, joints, elbows, flanges), of plastics.
3917.10		- Artificial guts (sausage casings) of hardened protein or of cellulosic materials:
		- Tubes, pipes and hoses, rigid:
3917.21	000	- - Of polymers of ethylene
3917.22	000	- - Of polymers of propylene
3917.23	000	- - Of polymers of vinyl chloride
3917.29		- - Of other plastics:
	
		- Other tubes , pipes and hoses
3917.31		- - Flexible tubes, pipes and hoses, having a minimum burst pressure of 27.6 MPa
	
		- - Other, not reinforced or otherwise combined with other materials, without fittings
	600	- - - Further worked than merely surface worked
		- - - Other:
	920	- - - - Of other addition polymerization products
	
3917.33		- - Other, not reinforced or otherwise combined with other materials, with fittings
3917.39		- - Other
	
3917.40		- Fittings

- Barangan tidak sesuai diperjeniskan di bawah heading 8547 kerana barangan yang dikemukakan *not reinforced or otherwise combined with other materials, without fittings and not further worked than merely surface worked* dan tidak menepati keterangan dalam EN HS 2012 Chapter 85 di muka surat XVI-8547-1 dan XVI-8547-2 seperti berikut :

85.47— *Insulating fittings for electrical machines, appliances or equipment, being fittings wholly or insulating material apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly, other than insulators of heading 85.46; electrical conduit tubing and joints therefor, of base metal lined with insulating material.*

8547.10 - *Insulating fittings of ceramics*

8547.20 - *Insulating fittings of plastics*

8547.90 - *Other*
