

**Dagangan** : MULTI LEVEL PARKING SYSTEM

Nama Barangan : Parking Tower  
Model : MAJWBc

**Kod Tarif (Perintah Duti Kastam 2012) :**

8428.90 900

**Tarikh Kelulusan** : 16 Januari 2015

Multi level parking system adalah suatu ruang letak kereta bertingkat-tingkat yang diurus secara sistematik dimana peralatannya antara lain terdiri daripada steel bars,motor,chain control board,stopper switch,sensor,gate top level lifting and lowering pallets,ground motion pallets,intermediate layer pallets.

Ianya merealisasikan penggunaan ruang letak kereta yang lebih efisien kepada masyarakat bandar dengan ruang letak kereta atas dan bawah tanah dengan menyediakan lot yang bertingkat-tingkat.

Gambar produk adalah seperti di bawah ::-

Cara penggunaan :

- (a) Operator akan memberi input no.parking pallet(kosong) tertentu melalui operation control board.
- (b) Sistem akan membuat penyusunan dimana parking pallet yang telah dikenalpasti oleh LCD panel,akan digerakkan secara selari,dalam gerakan mendatar dan menegak untuk mengambil ruang pada ground level.
- (c) Apabila parking pallet telah berada pada kedudukan "sedia ", front gate akan terbuka secara automatik.
- (d) Kereta akan dipandu masuk ke parking pallet yang telah disediakan.
- (e) Operator akan memasukkan maklumat 'selesai" pada Operation control Board dan arahan kepada front gate supaya tertutup semula.

Merupakan suatu system pengurusan meletak kereta secara automatic yang bergerak secara selari dalam gerakan/ mendatar/ menegak dan dikawal oleh satu control board.

Lifting/parallel motion by driving method ( driving up and down with roller chain by electric motor with speed reducing device or traversing with roller chain by electric motor with speed reducing device) and electric method (0.2-2.2kw ) furnished with brake( 3 phase 200/220V 50-60Hz).

Barangan ini sesuai diperjeniskan di bawah kod tarif **8428.90 900 (PDK 2012)** sebagai '**Other special handling machine**' berdasarkan alasan-alasan berikut :- berdasarkan alasan-alasan berikut:

Barangan mendapat liputan dalam HS 2012 Explanatory Note mukasurat XVI-8428-1 menjelaskan seperti berikut :

84.28 - Other lifting, handling, loading or unloading machinery (for example, lifts, escalators, conveyors, teleferics).

8428.10 - Lifts and skip hoists

8428.20 - Pneumatic elevators and conveyors

- Other continuous-action elevators and conveyors, for goods or materials :

8428.31 -- Specially designed for underground use

8428.32 -- **Other**, bucket type

8428.33 -- Other, belt type

8428.39 -- Other

8428.40 - Escalators and moving walkways

8428.60 - Teleferics, chair-lifts, ski-draglines; traction mechanisms for funiculars

#### **8428.90 - Other machinery**

*With the exception of the lifting and handling machinery of headings 84.25 to 84.27, this heading covers a wide range of machinery for the mechanical handling of materials, goods, etc. (lifting, conveying, loading, unloading, etc.).....*

These more complex machines include :

(I) *INTERMITTENT ACTION MACHINES*

(II) *CONTINUOUS ACTION MACHINES*

(A) *Elevators used for raising a constant stream of goods or persons vertically or obliquely. They consist essentially of a series of carriers of various types, attached at intervals to a jointed mechanism which turns as a continuous chain. They include bucket lifts for pulverised or granular materials, platform elevators for crates, parcels, etc., finger-tray elevators for sacks, barrels, bales of straw, sheaves, etc., and continuous multiple-cage lifts for passengers, etc.*

(III) *OTHER SPECIAL LIFTING OR HANDLING MACHINER*
