

Dagangan : CHAIN SPROCKET Nama Perdagangan : Chain Sprocket	Kod Tarif (Perintah Duti Kastam 2012) : 8483.90 000 Tarikh Kelulusan : 19 Januari 2017
---	--

Keterangan barangan :

Barangan ialah rantaian gegancu *chain sprocket* yang akan di pasang pada motorsikal.
 Kegunaan barangan adalah seperti berikut :

Sprockets are used in bicycles, motorcycles, cars, tracked vehicles, and other machinery either to transmit rotary motion between two shafts where gears are unsuitable or to impart linear motion to a track, tape etc. Perhaps the most common form of sprocket may be found in the bicycle, in which the pedal shaft carries a large sprocket-wheel, which drives a chain, which, in turn, drives a small sprocket on the axle of the rear wheel. Early automobiles were also largely driven by sprocket and chain mechanism, a practice largely copied from bicycles.

Barangan mempunyai rantaian yang membolehkan ianya bergerak mengikut sprocket.
 Barangan diletakkan pada bahagian bawah motorsikal yang membolehkan roda bergerak di atas jalan raya.

Ketetapan:

Ketua Pengarah Kastam Malaysia memutuskan barangan ini sesuai diperjeniskan di bawah kod tarif **8483.90 000** sebagai **chain sprocket** berdasarkan alasan-alasan berikut:

- Barangan ialah rantaian gegancu *chain sprocket* yang akan di pasang pada motorsikal.
- Barangan memenuhi keterangan EN di bawah kod tarif 8483.90 sebagai *chain sprocket*.

Barangan sesuai diperjeniskan di bawah 8483.90 dan menepati keterangan dalam EN HS 2012 Chapter 84 di muka surat IV-8483-2 seperti berikut :

- 84.83- Transmission shafts (including cam shafts and crank shafts) and cranks; bearing housings and plain shaft bearings; gears and gearing; ball or roller screws; gear boxes and other speed changers, including torque converters; flywheels and pulleys, including pulley blocks; clutches and shaft couplings (including universal joints).
- 8483.10 -Transmission shafts (including cam shafts and crank shafts) and cranks
- 8483.20 - Bearing housings, incorporating ball or roller bearings

8483.30- Bearings housings, not incorporating ball or roller bearings; plain shaft bearings

8483.40- Gears and gearing, other than toothed wheels, chain sprockets and other transmission elements presented separately; ball or roller screws; gear boxes and other speed changers, including torque converters

8483.50 - Flywheels and pulleys, including pulley blocks

8483.60 - Clutches and shaft couplings (including universal joints)

8483.90 -Toothed wheels, **chain sprockets** and other transmission elements presented separately; parts.

The goods covered by this heading are mainly :

- (i) Certain mechanical parts which are used in the transmission of power from an external power unit to one or more machines.
- (ii) Certain internal parts of a machine, used to transmit power to the various parts of the same machine.

(C) GEARS AND GEARING INCLUDING FRICTION GEARS AND CHAIN SPROCKETS

The basic gear is the toothed wheel, cylinder, cone, rack or worm, etc. In an assembly of such gears, the teeth of one engage with the teeth of another so that the rotary movement of the first is transmitted to the next, and so on. According to the relative number of teeth in the separate units, the rotary movement may be transmitted at the same rate, or at a faster or slower rate; according to the type of gear and the angle at which it meshes with the next, the direction of transmission may be changed, or a rotary movement converted into a linear movement or vice versa (as with a rack and pinion).

The group covers all types of gears including simple cog wheels, bevel gears, conical gears, helical gears, worms, rack and pinion gears, differential gears, etc., and assemblies of such gears. It also covers toothed and similar wheels for use with transmission chains.

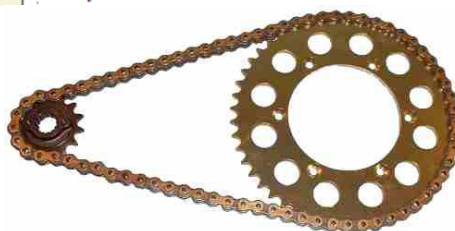

Berdasarkan struktur tarif dalam Perintah Duti Kastam 2012, barangan sesuai diperjeniskan di bawah kod tarif 8283.90 sebagaimana berikut :

84.83

Transmission shafts (including cam shafts and crank shafts) and cranks; bearing housings and plain shaft bearings; gears and gearing; ball or roller screws; gear boxes and other speed changers, including torque converters; flywheels and pulleys, including pulley blocks; clutches and shaft couplings (including universal joints).

8483.90 000

- Toothed wheels, chain sprockets and other transmission elements presented separately; parts
