

Dagangan: 92. ACRYLIC RESIN IN PRIMARY FORM Trade Name : Flame Retardant Plastic Compound	Kod Tarif : 3903.90.900
Keterangan : a. Berbentuk plastic pellet dan <i>no odour</i>. Komposisi bahan : Butadiene-styrene copolymer - > 70 %, Brominated flame retardant > 10 – 20 %,Antimony trioxide (Sb2 O3) < 5 %, Proprietary Ingredient < 5 %. Elongation (ASTM D638) – 35 %. Digunakan bagi <i>produce plastic parts for home appliances, office automation and automotives</i>. b. Laporan kimia menunjukkan barangan berbentuk pellet berwarna hitam dan sesuai sebagai Butadiene styrene co-polymer. c. EN 2007 legal notes to heading 39.03 di mukasurat VII-3903-1 <i>This heading covers polystyrene and copolymers of styrene. The most important copolymers of styrene are styrene-acrylonitrile (SAN) copolymers, acrylonitrile-butadiene-styrene (ABS) copolymers and styrene-butadiene copolymers.</i> d. Dengan menggunakan General Interpretation Rule I dagangan ini telah dipenjeniskan di bawah nombor kod tarif 3903.90.900.
